THE QUESTION OF ESTABLISHING A BRANCH INSANE ASYLUM.—An effort was made in the Senate this week to obtain an appropriation of \$50,000 per annum for five years for the purpose of building two wings to the present insane asylum, but the feeling in the Senate was opposed, not to the increased accommodations asked for this class of unfortunates but to adding to the present building. A substitute offered by Mr. Love to establish a branch asylum in Asheville passed its second reading, but yesterday the Senate adopted a resolution calling for a joint committee of five to proceed to Asheville and other points in the West to examine other points in the West to examine certain buildings that had been tendered the State, to report back on the 2nd of March. THE FINALE OF THE USURY BILL. -The Usury bill, over which so much excitement has existed, and also furnishing reading matter to nearly every paper in the State to the exclusion of all other matter, came to a head in the House vesterday, and we are glad to chronicle its finate. Mr. Speaker, if any gentleman desires to be heard let him now speak, and I will yield a part of my time.

After some brief remarks by the dvocates of the measure, Mr.

Walker proceeded.
Mr. Speaker, I don't intend to speak to the merits of the bill. I desire merely to submit a few remarks in the last struggle for my people. It will be conceded by the opposition that throughout the whole debate I have extended every courtesy that could be reasonably asked. I have tried to act generously throughout. In my opinion, the opposition have never "joined issue" with us upon the true merits of this measure. I they have met a single position taken by those opposing the passage of the bill, with all due defference to them, I must say I have failed to discover it. But, Mr. Speaker, further argument would prove futile, and ould fall with no force upon my hearers. I do desire to say this, that I have battled for the rights of my people many times upon this floor, and this is my first defeat. I have in this contest met asgallant knights as ever rested their lances in an intellectual tilt. I may fail to-day with a shivered lance, but they will ot charge me with a want of courage but will attribute my fall to a prejudgment upon the part of the House. My death is now well nigh at hand, and the deepest regret I now entertain is, that North Carolina and the gallant gentlemen who have fought with me are its companions. DE CASTRO.—The audience last night, at Tucker Hall, was much larger than that of the night previous, a fact that shows he is improving on acquaintance. His tricks were, as usual, good, while Jeppe and Miss Fannie, in their songs, solos and dance, even aurpassed themselves. A number of valuable gifts were distributed, the capital prize being \$20 in greenbacks, which was drawn by a little daughter of J. M. Rosenbaum. Matinee this afternoon at 20'clock,

Matinee this afternoon at 2 o'clock, twenty-five cents admission, and every child will receive a present.

To-night is his last appearance. Change of programme and the capital prize \$30. Among the presents to-night will be a live pig, which must be taken off the stage by the ticket holder.

THE TIM LEE-DUNN TRIAL .-The above trial, a report of which has heretofore appeared in the News, is still progressing in the Superior Court. The testimony for the prose-cution, closed yesterday evening, Messrs. W. W. White, George Wil-liams, Wm. Jenks, Henry Jones, col., 1. P. Devereaux, E. G. Hay-wood, J. B. Batchelor and John Gatwood, J. B Batchelor and John Gat-lin being the witnesses. Only one witness was examined for the de-fense, Robert Wynn, Esq. It is thought the argument will com-mence on Tuesday and the case may possibly conclude on Wednesday.

COTTON.-There seemed to be more COTTON.—There seemed to be more commotion in the cotton market yesterday than at any period during the week. The market opened steady at 14% for low middling, but soon jumped up to 14%, and closed firm at 14%. Ninety-ore bales of Daniel Stewart's, graded at middling, was sold by Messrs. Wyatt, Bingham & Co. at 154@15%, In New York the market increased an eighth, and the London market quoted firm. We are therefore inclined to the opinion that our market will go over 15c to day. our market will go over 15e to day.

ACKNOWLEDGMENTS.-We knowledge the receipt of an invita-tion to be present at the Semi-Annu-al exhibition of the two higher class-es of the Charlotte Military Insti-tute, which took place February 18th and 19th.

MESSRS. GLENN AND FOOTE.-At the request of a number of prominent gentlemen, we propose to publish in our Sunday's issue the excellent speeches of Messrs. Glenn and Foete, delivered at the night session Thursday, pending the consideration of the Glenn resolution. Parties desiring extra copies of the same, will please leave their orders with the NEWS' reporters in the House and Senate to-day.

FINE COTTON.—We saw at the sample rooms of Messrs. Wyatt & Bingham's yesterday, samples of 81 bales of cotton, the entire crop of Daniel Stewart, of Harnett counwas refused. It afterwards sold for 15} cents. Mr. Stewart is said to be the best cotton farmer in the State.

CONVALESCENT. - The many friends of Mr. Paul B. Means, of Cabarrus, who has been confined to his bed by serious illness at the Yarborough House, will be glad to learn that he is convalescent and ere many days will be able to resume the seat in the House that he has filled with honor to himself and credit to his county. We wish him a speedy recovery.

THE MASONIC TEMPLE.—The first dirt will be broke for the Masonic Temple Monday morning. The Contracting Committee held a meeting yesterday evening and awarded the contract for excavating to Mr. Sydney Bryant, who has filed his bond, and will be ready for operations bright and early Monday morning.

GRANT AS A LOBBY AGENT.— The Washington correspondent of the Savannah News says: Much of the criticism upon those who hang around the lobbies and corridors of the Capitol, pressing improper schemes upon the members of Congress, is well deserved. But in all the phillippics printed against this class, not one vodr has yet been said of the greatest lobbyist known in the halls of Congress. The sole object of all the other lobbyists is to get through some bill to take money out of the Treasury to lobbyists in his efforts with members of Congress seeks to compass ends so unholy and through means so iniquitous, that the objects and purposes of his compeers in the lobby are virtue itse!f in comparison. This lobbyist is no less a person than the President of the Unit d States. Almost daily he is at the Capitol engaged in arging upon the members of Congre he passage of measures designed and intended to oppress at least one-half the country, deprive its people of their dearest rights, grind them in the dust if need be, in order that his personal ambition may be gratified. Never before in the history of the government has the Chief Magistrate hung around the Capital pleading, cajoling, and even threatening mem-bers of the Senate and House of Representatives, in the hope of bending them to his wishes.

There came into the Senate at Wash ington the other day from the com-mittee on Pacific Railroads, a bill to subsidize a new railroad spezulati somewhere out in the wilds of Oregon. But it found no favor, indeed it sunk of odium that even Hipple Mitchell had not, the courage to vote for it. On a motion to table it the yeas were 46, and the nays 2-Cameron and Flanagan. It is pleasant to see Simon and Flanagan thus dwell together in 'unity. In the pregnant language of Mr. Weller, they are "a pair on 'em," Col. Scott ought to be very proud of his brace of Senators, who stick when all the world has failed him; whatever others may do, Cameron and Flanagan will never desert their principles .- N. Y. Su

Thirty minutes being left to Mr. Walker, he proceeded to close the discussion in which he passed a fitting eulogy on the energy, tact and ability diplayed by those whom he had battled with on this bill, and said though his execution would take place in a few minutes he knew he place in a few minutes he knew he would die in a good cause, fighting for the interests and Honor of North

Carolina. The bill then passed its final read-The bill then passed its final reading by the following vote:

PERSONAL PRIVILEGE.

At the Thursday night's session,
Mr. Moring rose to a question of privilege. He said when the bill to
create the new county of Pender was
under discussion in this House, he
had read in support of a motion to
postpone, a telegraphic dispatch
signed by Daniel Shaw, D. T. Durham, W. T. Ennett and B. Brown.
Whereupon this dispatch was declared to be fraudulent. He was now
happy to state upon the authority of
a letter from Mr. Ennett, and the affidavit of Messrs. Brown and Durfidavit of Messrs. Brown and Dur-ham, that the House and himself had not been imposed upon, but that that the dispatch was genuine. He gladly made this statement in justice not only to himself, but to Mr. Ennett, the author of the dispatch, though he did not have the pleasure

of a personal acquaintance with that gentleman. Mr. Walker, in reply to the remarks of the gentleman from Chatham, said that he had pronounced the dispatch in question a forgery upon information, and had so stated to the time. He cheerfully bore too. at the time. He cheerfully bore tesimony to the honor and integrity of Maj. Ennett, who was his personal

POSTERS, CHECKS, DRAFTS,&c. ONLY twelve days more before Congress adjourns! But what a power of mischief may be done in

HANDBILLS, PAMPHLETS,

those twelve days! WEST VIRGINIA has a Senator at last after a month's balloting, and what is singular after so long a struggle, has elected one who is worthy of the position. Mr. Allen Caperton seems to be generally acceptable, a good Democrat filling the place of a very objectionable Republican. Now let Wisconsin come with another Democrat.

An injunction has been sued out to enjoin the holding of the next municipal election in Wilmington, on account of alleged disfranchisement of voters. The injunction is to be tried before Judge Bond in this city on the 6th of March. It would embarrass any one but Judge Bond to confirm the injunction, and we do not believe that even he will favor it. The pretence of disfranchisement is a shallow one, as not a right is interfered with, except the right which would seem to be claimed as a vested one, of an unscrupulous organized majority to prey upon the fortunes of a hitherto helpless minority. To the aid of the latter, the Legislature has come, and it would be the part of a pure and and impartial judiciary to uphold its action.

OUR SENATORS.

Despatches from Washington bring the gratifying information of the reputation which our Senators have brought to their State, and the increase of fame they have gained for themselves. On the Louisiana question Mr. Merrimon spoke on Wednesday night for six hours and on the the same subject, Mr. Ransom made a speech which is said to have been the best made in the Senate in twenty years.

Mr. Merrimon has by his previous efforts made a national reputation. Mr. Ransom has spoken but seldom, but we knew his capacities, and were confident that he would crown himself with honor whenever he chose to reach out his hads for the laurel

After the Fourth of March, North Carolina may look upon her Congressional representation with pride and almost unmixed satisfaction.

THE RESOLUTIONS

Introduced by G. W. Glenn in the House last week were fully discussed on Thursday morning, and such was the interest in them that discussion was resumed at an evening session of the House. Without definite action at the time, they were referred to a special committee of five to be appointed by the Speaker.

As was anticipated from the assemblage of the Republican caucus on the night the resolutions were first introduced, and the conferences and consultations since, the abandonment of the party was confined to Messrs. Glenn and Foote. They were consistent to their first positions, and judging from their speeches and actions, true to their consciences, convictions and pledges. To others, who freely in private consersations had endorsed the action of Messrs. Glenn and Foote. and had signified their intention to imitate them, it is evident that the party lash was applied with unsparing vigor, and the party screws turned with relentless force. They remain with their party, and tamely accept the ignominious decree against which every Republican in the State was in rebellion last summer on the stump.

The people are hardly as pliant as the politicians, nor quite so forgetful as would be agreeable to the

future fortunes of these gentlemen. The affair in its origin and conduct was altogether Republican, or confined to those who had been members of it. The Democratic party therefore have no regrets to express that so few of that party had the courage or independence to follow the dictates of that aroused sense of indignity which so nearly drove them to follow Mr. Glenn and Mr. Foote, and which enabled those gentlemen to come out from a party they can no longer respect or obey. AN EVIL CORRECTED.

Last summer attention was called through the interest of Mr. Mills, the zealous Principal of the Oxford Orphan Asylum to the humiliating fact that in portions of the State white children were in a state of servitude to colored masters, and that in those cases the former relative positions of the races was subverted. The knowledge of the fact sent a thrill of horror through the State, and roused the determination to define strictly the legal powers in the premises and fix upon the statute books a peremptory check to all such abuses. A bill was introduced into the Senate some time since forbidding the binding of white children to colored masters. The bill there obtained all the white vote. was taken up in the House on Thursday and passed by a vote of 88 to 12. Of these 12, one was white, Thorne of Warren, who has so thoroughly lost all pride of race that he voted to perpetuate this infamous abuse. As he has chosen his own associates, he may not be conscious of the degradation. The colored voters voted as might have been expected, and incur no special

THE proposition of Edmunds to strike out the resolution seating Pinchback and inserting that of the Committee on Privileges and Elections, which is an instruction to report a bill declaring no constitutional government exists in Louisiana, and providing for the election of Governor, Lieutenant Governor. members of the General Assembly, &c., might seem to offer a solution to the troubles of Louisiana, if faith would be kept. Not that there is any constitutional sanction for such action, but Louisiana has been put out of the pale of law and constitutions. The wrongs done her will not be undone. The grasp of the Federal power will never be loosened, nor will the hold of the harpies upon her vitals be relaxed from any regard for law or any tenderness for her sufferings. But if an election could be had uncontrolled by military guardianship, or held free from corrupt manipulation, it might be well to regard the elections within the last two years as blanks. But it is so dangerous an innovation and so desperate a resort that unless forced to it, Louisiana should not accept the proposition.

It is difficult to understand why it is that a people so thoroughly free in all their habits of thought, word and action as were the Americans; who guarded personal and political liberty with such jealous care, and who engrafted upon their laws all those safeguards of freedom won with such pains by their British ancestry, should so suddenly have become indifferent, and view the momentous movements of the President of the United States with such listless eye. Do they realize what is the meaning of the suspension of the writ of habeas corpus? Do they know that the deprivation of that right at once effaces every traceof liberty, exacts at once an absolute personal despotism, puts every individual at the mercy of arbitrary will, consigns him to dungeons without accusation and holds him there without appeal or the prospect of relief? Or which, if not put in force, broods with the weight of an unknown terror over every head, hushing the voice into whispers, and repressing action into sluggish suspicion?

Yet such is the calamity which a President lustful of more power, and an obsequious Republican caucus hopeful of individual advantage are preparing for the people of the country. And it is an ominous feature that the hope of averting it hangs not upon patriotism, but upon the jealous fears of rival aspirants for the Presidency to whom no government will be left to which they can succeed, no honors left to which they can aspire.

There are patriots in Congress, patriots of the North too, a small band who will struggle manfully for the salvation of constitutional liberty. The sincerity of some and the selfishness of others united may save the little that is left to us of freedom, until the great party who achieved its victory last year, and whose representatives stand ready to fill the places of the defeated and departing swarm shall seize the reins of government. Until then.

liberty trembles in the balance. The New York Herald's Washington correspondent, writing on the 15th instant, says the power of the Republican party is broken, and the caucus which seemed so formidable threatens to fall into utter contempt. The habeas corpus bill, he says, will be put up only to be knocked down. e put up only to be knocked down by Republican voters. The speech of Mr. Blaine against it is regarded as an event in Washington circles, and the backbone of the administration s thought to be broken. We trust so; but we fear the snake is only scotched, not killed.—Richmond En-

The following special to the New York Sun, dated Washington, the 15th. says:

The events of the last two weeks have developed a strong feeling in favor of the third term. Members of Congress who have hitherto been opsed to the scheme, who hate Grant and who have not sympathized with him and the Ring which is working for his renomination, now begin to concede that a third term nomination is almost inevitable. A leading Re-publican member of Congress from Pennsylvania, says to-night that Grant has the whole thing in his own hands, and that he is evidently termined to play every card in his

West Phyladriphia, January 4th, 1875.

I have analyzed as follows:—"I Sample of "Soluble Aminouisted South Sea Gueno prepared for Cotton by B. M. RHODES & CO., 82 South Street, Baltimore, 152 lbs.," which I found to contain—

2—Sample of "Orchilla Guano, A.A., B. M. RHODE & CO., Importers' Agents, South Street, Baltimore, 167 lbs. Curacao," which I found to contain.— PHOSPHOFIC ACID. - 28 86 pr. ct., equivalent to 58 64 pr. ct. of Bone Phosphate of Lime

Both samples were certified to having been taken, sealed and sent by Thos. "ARRIS HODGES, Notary Public, and were in perfect condition. F. A. GENTH. Professors TONRY, LIEBIG and MALLET say of the Orchilla Guano The Orchilla, which seems to be an organic deposit, can be recommended to the farmer for use in its crude state, and after a careful and complete analysis as well as a thorough examination of the mechanical condition as well as from the testimony of several who have used it in its crude state, and have expressed to me their entire satisfication. I feel perfectly justified in recommending the Orchilla.

W. P. 10NRY, Prof. Anal. and App'ld Chemistry, Maryland Institute.

The Orchilla Guano, which is truly an organic deposit, deserves well the attention of the farmer, not on you account of the high grade of its Phosphates of Lime and Alkaline Salts, but more particularly for the physical condition and extunct methods which this Guano is presented.

G. A. LIEBIG, Ph. D. This material decidedly recommends usely to the attention of farmers by its large proportion of Phosphoric Acid, being in a form to be much more easily taken up by growing plants than that of the harder and more compact Mineral Phosphates. Farmers can themselves very easily add Pruvian Guano, Cotton Seed, Mill Refuse or other attended affording Nitrogen when it is desired to combine the effort of Ammoniacal with that of thosphatic Manure.

of thosphade Manure.
I are, gentlemen, respectfully yours,
J. W. MALLET, Charlottsville, Va. RALEIGH, N. C., January 29 1875

From the Analysis of Dr. Gesth there is no doubt of the high per centure of Phosphate of Lime in this Guano, and I endorse the recommendations of Prof. MALLETT upon the above testimony of hims in and Prof. LIFB G.& LONEY as to its physical condition that to offers a desirable source of Phospharic Acid to Cotton Farmers and others who have the means of fur ishing the Nitrog nized scatter at home.

Dan Rice a Bankrupt-A Few Curious Facts About His Liabili-

For nearly a quarter of a century the famous clown, Dan Rice, has been known to the people of the whole country. After years and years of acting in the ring and drawing laughter and applause from the patrons of the circus throughout the patrons of the circus throughout the States, the Territories and the Canadas, he is now compelled to ask for the benefits of the "Act to Provide for a Uniform System of Bankrupt-cy" throughout the country. His has been a varied fortune indeed. At one time a clown in a circus, then a candidate for President of the United States, subsequently a newspaper publisher, and now, a bankrupt.

His petition, as filed in the District Court of the United States for the Western District of Pennsylvania, sets forth a large amount of liabili-ties, yet the assets are scarce. After about twenty years of a very active business life, at one time rich, at another poor, Dan Rice, whose name is familiar to the whole people, comes in the Wilson Concert, and is nvesting all his spare change into court and makes oath that his entire worldly property consists of one suit of clothes, valued at seven-ty-five dollars, while his liabilities are in the immediate vicinity of one hundred thousand dollars.

The principal liabilities come up in

the shape of judgments, notes, licenses due, hotels, printing and lawyers' bills. Mr. Rice evidently had a host of admiring friends, as is found from a glance at the petition that he could borrow money and give his note just as readily in Canada as he could in New Orleans or any intervening village or city. Now that old age is coming on him, he is desirous of riddeavoring to make a fresh start. To be sure, his capital is limited, but he must have sufficicht persuasive powers and a goodly enough supply of energy to weather the storm yet, if he can only lay in a respectable stock of "application," coupled with a little business management.

The papers in the case will be referred to the United States Commissioner at Erie for adjudication, and a final discharge will likely be granted to Mr. Rice at the next sitting of the United States Court.

The Democrats are confident of carrying New Hampshire on the 9th of March. They propose to elect a Governor, member of Congress and the State Legislature. Farmers of North Carolina.

FOR

GENTLEMEN—Two years ago, at the request of a number of the leading planters of your state, I endeavored to form what was then known as the North Carolins Fertilizer Company. The main object (on your part) in engaging in the enterprise was the reduction of the then prevailing high prices for fertilizers by ferming a Farmers' Manufacturing Compuny, and said Company being owned and controlled by you, thereby be enabled to obtain a certain amount of the production at cost price. After spending some three months in thoroughly canvassing those sections of the State in which fertilizers were largely used, a subscription to the stock was obtained, of which we have no cause to be ashamed. Unfortunately, when we may to roughly desire the proprise, etc., of those who were interested in preventing its formation pre sailed, and the enterprise was abandoned. I was afterwards frequently solicited to start once more, and many offers and pledges made, but I have refused, being fully convinced of failure. Although I have refused to attempt there-formation of said company, yet I have single-handed carried on the fight we jointly began for two prices, being fully convinced that the true policy of the dealer is large sales and reasonable profits.

In introducing Guanahani Guano last year, consistancy to this policy was shown, although the chemical endorsement from the highest authority in the land entitled the Company to charge a much higher price than the \$40 per ton at which it was placed on the market. the market.

It was expected that this fight for low prices would raise great opposition from parties interested in preventing the same, but hardly that it would be carried on with such a bitter spirit as witnessed during the past year. I desire no better vindication than the certificates contained in the circular of that Company, showing as they do more general satisfaction to the planting public than any fertilizer that has ever come under my observation. observation.

That a high standard of knowledge in regard to agricultural chemistry does not exist among the farming public, there is no doubt; in fact, all admit it; but waite regreting the same, hope for better days to come.

The above being true, we must expect to find opposition to new ideas, until the time when practical demonstration of the plantation shall drive out the existing prejudice for eld things. The above being true, we must expect to find opposition to be a visiting prejudice when practical demonstration of the plantation shall drive out the existing prejudice for cld things.

Such a prejudice existed last year the regard to Guanahani Guano. Many did not even grant it a small trial or test, from the fact that it do not ent the odor by which they have been in the habit of judging of the good qualities of a fertilizer. But few are away re that forms of nitrogen or ammonity, other than a volatile condition, exist, and that two or three of saft other forms are, for many reasons, more voluntie for agricultural purposes than even the safts of ammonia in Peruvian Guano.

Again: but few are aware that phosphoric acid or phesphete of lime exist in a natural guano in different forms from these confained in manufactured fertilizers. The farming public have been fought to look for so uble, predicted and insoluble phosphoric acid, and have been effectively in the deark as regards neutral phosphoric acid, pronounced by all chemists, and estimated in all tables of agricultural value of such ingrediens, to be worth the same as the soluble phesphoric acid of the manufactured article. Such prejudices as these oper, ted more again at the introduction of Guanahani Gua-than all others. no than bill others.

In order to eradicate these false ideas or prejudices. I appeal to that almost infallible verdict that comes from the plantation test, and refer you to the certificates contained in the circular named.

These certificates are from different sections of the States of North Carolina, Virgi is and Maryland, where Guanah uniwas used during the past year.

In No trearding they with be soon to nexamination, to extend from Gatesville 1: the East to Charlotte 1 the W st and from the first agriculturists of the different sections. Sections

The judgment in these cases has not been made on account of a fine growth of a ced
or stack, but from final results—as shown by the an ount of grain or seed cotton—and I
know of no better mode of judging than "By their faults ye shall know them."

With respect, yours truly, WM. R GRIFFITH

Having resigned as General Agent of the Guanahani Guano Company after my re-election, I desire to call your attention to the new enterprise in which I am engaged as General agent and to inform you that I intend to still carry on the fight for low prices. Measrs. Thos. Branch & Co., of Richmond, Virginia, having secured a large deposit not covered by the grant to the other company operating the same islands. I now offer you at a kenuced price the same guano from the same islands as that I introduced to you last year under another name.

The guano wow offered you will be known as CAT ISLAND GUANO, and will be de-livered as it is imported (without manipulation), being a genuine guano.

With respect, yours truly. Imported by Thomas Brauch & Ca., Richmand, Virginia.

WHANN'S RAW BONE SUPER-PHOSPHATE

is no new or untried manure. It has been before the public for upwards of ten years, during which time it has been steadily growing in reputation, until it is now universally recognized as one of the most uniformly reliable concentrated fertilizers in the market. It is manufactured from the best and purest raw materials, every one of which is subjected to chemical analysis before being used. The purity of the tertilizer is thus assured. In addition to this, every step of its manufacture is conducted under the strictest chemical supervision, so that farmers are thus guarded at every point from any danger of using an inferior article. On

Cotton. Corn and Tobacco

WHANN'S PHOSPHATE has produced the most gratifying results, in many instance for exceeding the most sanguine hopes of those who have used it.

We offer this renowned fertilizer for the coming season, season or friends that the same high standard which has always characterized it shall be rigidly maintained.

Green Level, Wake County, N. C., Nov. 25, 1874.

Messrs. Williamson, Upchurch & Thomas:
Gentlemen:—The ton of Whann's Raw Bone Super-Phosphate purchased of you last
Spring made the best crop of cotton I ever made, and I consider it decidedly the best
fertilizer I ever used, I want it again next season.

Yours truly,

Messrs. Ring, White & Shaw:
Gentlemen:—In reply to your inquiry as to my opinion of Whann's Raw Bone Super-Phosphate, I unhesitatingly say that by comparison with other fertilizers during the last three years, I am sati fiel that Whann's has turned out better crops for me than any other, and I expect to continue to use it.

Yours truly,

JOHN E. THOMAS. Louisburg, N. C., Nov. 9, 1874.

Oxford, N. C., Dec. 15, 1874.

Messrs. Williamson, Upchurch & Thomas, Raleigh, N. C.:

Dear Sirs:—At the Orphan Asylum in Oxford, a very decided success has attended every application of Whann's kaw Bone Super-Phosphate. The land was poor, and the season dry, but the crops surpassed our expectations. Such a fertilizer will work its own way, because those who have used it once will want it again.

J. H. MILLS, Supt. Louisburg, N. C., November 7, 1874.

Messrs, King, White & Shaw:
I have used Whann's Raw Bone Super Phosphate for the past four years, and am so well pleased with its result on my cotton crop that I have no wish to buy any other Fertilizer. Louisburg, N. C., Nov. 10, 1874. I have been using Whann's Raw Bone Super-Phosphate and other kinds of manufacture of fertilizers for several years, and feel confident in saying that I prefer Whanu's to any other. I cheerfully recommend it to be a first-class fertilizer, and expect to continue its use as long as its present standard is kept up.

GUANAHANI GUANO COMPANY,

PETERSBURG, VA.

In offering this FERTILIZER to the Agricultural Community a Second Season we do so with the numos t confidence, feeling satisfied that the high opinion, we formed, and expressed last season based or its Chemical Constituents, have been most satisfactorily borne out by the test, by which all Fertilizers must be judged, that of the Plantacion. Last season, owing to the lateness at which we commenced importing, we were forced to put our Guano on the market at once, but now having continued our importations during the summer and fail, and having large and well ventilated Warehouses in the city of Petersburg and at City Point, we are enabled to put our Guano on the market, in a condition as to dryness and freedom from lumps, equal to any Manufactured Fertilizer.

in a condition as to dryness and freedom from fullaps, equal to any analyses of the lizer.

We solicit a careful perusal of our Circular containing the certificates sent us, and which can be had on application at this OFFICE, or from any of our AGENIS. Having nothing to conceal, we made no innovation on established usage, by publishing those letters received unfavorable to our Guano, but careful inquiry in many cases proves that the cause of its failure was not owing to any fault in the Guano, but to those far beyond our control. We have frequently heard the same complaints of its kindred Fertilezer, Peruvion Guano, but the concurrent testimony of well known Farmers and Flanters from Maryland to be extreme Western counties of North Carolina, justify us in claiming place for our Fertilizer Superior to many, and sac onto NONE.

We confidently expect the continued estronage of the Agricultural Community and no exertion will be spared on our part to make
